

EXG300

Grain Bag Unloader
For 9 or 10 foot bags

AKRON[®]

EXG300

Grain Bag Unloader

For 9 or 10 foot bags

AKRON[®]

TAKE THE ADVANTAGE AT YOUR FIELD

- The AKRON Patented Push Pan forces the last bit of grain towards the augers, leaving almost no grain left behind to clean up! An AKRON Exclusive!
- We now include specially designed Bag Deflectors, so they do not wrap around outside of the rolling tube.
- Bottom Angular Gearbox. It simplifies the augers performance and ensures an optimized way of ending the bag.
- Independent Hydraulic Controls.
- Hydrostatic Movement. The machine moves automatically as the bag is winded up by the roll. It has a speed adjustment system and a sturdy reduction gearbox.
- Tires: 265/70R16.

Great Capacity!!! 280 tonnes/hour

**It fully winds up the grain bag.
Automatic movement independent
of the tractor traction.**

For bags of	9 feet (with option to 10 feet)
Unloading Performance	280 tonnes/hour – 10,300 bu/hr
Power Required	90 HP
Tube/ Auger Diameter	430 mm/ 17 in
Horizontal Auger Diameter	250 mm/ 9 3/4 in

AKRON may change specifications and product designs in this or other brochures at any time, without previous notice. Images are for illustrative purposes only.

Bags Deflectors.

Grain Pusher.
It ensures an optimized way
or ending the bag.
